**YOU MUST BE 21 TO
PURCHASE FIREWORKS.**

**VALID BC DRIVERS
LICENSE OR BCID
REQUIRED.**

Top Wick - Plant firework at least 1/3 in a bucket of sand or soil. Note - tilt 5-10 degrees away from audience.

Side Wick - Plant firework in a bucket of sand or soil up to the wick. Note - tilt 5-10 degrees away from the audience.

Mortars and Mine Bursts - Place on a flat ground or better still place on a piece of plywood and tack it down with finishing nails.

Cones, Showers & Fountains - Place on flat ground or flat piece of plywood. Various fountains have to be planted in a bucket of sand or soil. Read directions on the side of the packaging.

Sparklers - Keep everyone 6 feet apart. Do not allow anybody to chase or wave sparklers at each other or throw them. Place burnt sparklers out in a bucket of water. Note - be careful, don't place sparklers in other fireworks.

FIREWORKS SAFETY

PLEASE HAVE A SAFE FIREWORKS DISPLAY AND READ THE BELOW SAFETY TIPS CAREFULLY.

The Golden Buddha, your Family Fireworks Retailer, wants all their customers to have a safe Fireworks Display. Fireworks are not toys and should be respected. Please ensure all steps are taken to make your Fireworks Display as safe as possible.

No firework except sparklers are to be held in hand when lit.

Do not leave fireworks unattended or close to lighting area

Never take fireworks apart or modify them in any way

Be familiar with your fireworks before starting the display. Pay particular attention to the location of the wick and proper direction

Keep everyone back at least 40 feet for smaller ground effects, 150 feet for aerial effects.

Most fireworks are design to be planted at least one third in a bucket of soil or sand and tilted slightly away from the audience

Never lean over a firework when lighting or after an item has been lit

HIGH WIND will affect the quality of your display and may create a hazard. Be sure the firing area has lots of open space

Using a flash light, ignite each firework at arms length and immediately stand back

If an item does not ignite easily or seems to fizzle do not handle for ten minutes

Please be kind, keep all PETS SAFELY INDOORS

Have a large bucket of WATER or a water hose available. Hose down all debris after your display

People lighting the display should wear ear and eye protection. A propane torch provides a constant steady flame for lighting

Keep fireworks in a closed box. Remove one at a time and close the lid at once

Fireworks have long been the focal point of many celebrations. They have provided people with fond memories from childhood and throughout our lives. Please keep the traditions alive and above all stay safe by taking all precautions and following product directions.
